30 <sup>th</sup>	Maria	B1	ST

Hi everyone!

So many birthdays this month

We hope you all had a super *Easter* and *holiday*.

It's the last term, so if your test results weren't

what you expected, you have a chance to

STUDY and DO BETTER!!!

## **AWESOME STUDENTS**

Dear Mrs. Roberts,

Thank you for reaching out to us about the food festival.

I think we should include tacos from Mexico because they are delicious and very popular. We could also have sushi from Japan because it's unique and a healthy option. Another suggestion is pasta from Italy because it's a classic and loved by many.

As for activities, we could have a photo booth where students can take pictures with props from different countries. We could also have a trivia game where students can learn fun facts about different cultures.

I'd love to attend the festival!

Best regards,

Vasco

A2+ ST

### **“Back to the 80s”**

“Back to the 80s” is an arcade complex that exists in my town centre, where young people often go to hang out with friends and have fun. Here, you can find a bowling alley, several snooker tables and different game machines. Besides that, there is a bar where you can buy food and drinks.

This place is very popular, because apart from all the entertainment facilities that it offers, this complex also has an 80s and 90s themed decoration. This trait gives the space a more retro environment that teenagers love.

“Back to the 80s” offers a lot of different activities to do with your friends, however I believe that most people my age prefer the bowling alley and the snooker tables where they can chat and have a drink, while playing games. However, the game machines are usually occupied by younger people that find it more fun.

This complex is situated in the town centre so it has very easy access. Basically, it has such an accessible location that you could walk from school and arrive there in less than fifteen minutes!

“Back to the 80s” is a great place for everyone over 13, where you can have fun with your friends, while eating and drinking, as well as listening to great 80s music!

24	25	26	27 Administrative Professionals Day	28 Take your Kids to Work Day	29	30

### ***DID YOU KNOW ?***

-**Pineapples** were a sign of wealth in [18th-century England](#). They were so expensive that you could rent them by the night and take them to parties with you as a status symbol.

-**Curiosity is fueled** by what you already know. You're far more likely to be curious of the things you already know a little about than you are of something you know a lot about or know absolutely nothing about.

-**Taylor Muhl is her own twin.** She has chimerism, which means her cells fused with her fraternal twin's in the womb. Her body has 2 sets of DNA, 2 immune systems, and 2 bloodstreams. This has plagued her with autoimmune issues, as her immune system is constantly trying to fight off her twin sister's cells.

-**If you want to be more productive,** listen to a video game soundtrack while you work. People who work in silence are slower and less proficient than those who listen to music, and video game music is specifically designed to keep you motivated and finishing tasks without stealing your focus.

-**The football huddle** was first used at a college for the deaf in the 1890s so the players could keep their signing hidden from the opposing teams.
